1330 Montclair Dr, Oakville

About the Event

Between December 15 and 17, 2025, White Oaks Secondary School will host its signature three-day academic competition in Physics, Mathematics, and Computer Science, the WOSS TriOlympiad. Organized by the school's Math, Physics, and Computer Science clubs, it brings together some of Halton's brightest students to tackle theory-rich contest problems and fun activities to apply their knowledge. With over a hundred interested participants from grades 9 to 12, the event showcases the strongest and most diverse STEM talent at the largest high school in Oakville.

Why Your Sponsorship Matters

Community

1. Support local students and future innovators
2. Demonstrates commitment to youth and education
3. Enables a positive community building school event
4. Home to the largest school in Oakville with a neurodivergent population and highest gender ratio

Vast Outreach

1. Largest high school in Oakville with an IB program consisting of the most dedicated math, physics, and CS students
2. 100-200 expected participants all across HDSB
3. Cater and promote your company and its services to a diverse group of students

For sponsors, it is a unique opportunity to connect with motivated, STEM-focused students, their families, and our alumni community, including graduates now studying at CMU, Harvard, and Penn, as well as notable figures such as Canadian astronaut Chris Hadfield. By supporting an event rooted in deep problem-solving, academic challenge, and inclusive participation, you directly contribute to strengthening STEM diversity, fostering enriched educational experiences, and expanding high-impact learning opportunities for Oakville's young innovators.

Sponsor Perks

wosstriolympiad@gmail.com

	 Vector \$100	 Matrix \$250	 Tensor \$500	 Singularity \$1500

Flexible Sponsorship Options

Not sure where to start or looking for something else beyond our standard sponsorship packages? We offer customizable add-ons and alternate sponsorship options to help you meet your goals. Let's build something that works for you!

Personalization

* Dedicated Sponsor Booth: A high-traffic table at the event for your team to network and demo.

** Host a Branded Prize Category: Create and name your own prize (e.g., "Best in Physics") for a specific challenge.

*** Feature in Resource Directory: Place your APIs, links, and docs in the official resource hub for all participants.

**** Host a Workshop or Tech Talk: Lead a 30-60 minute session to engage and teach participants.

White Oaks'

TriOlympiad

Let's work together.
